IDENTIFIERS	*Illinois

ABSTRACT

Data are provided on students, faculty and staff, instructional programs, operating finances, and capital construction in the Illinois public community college system for 1982. After a summary profile of the Illinois public community colleges and a listing of the colleges, section 1 details student characteristics for each college for Fall 1982 by age, sex, ethnic background, academic classification, residency, enrollment status, and educational objective. This section includes a summary of student headcount and full time equivalent (FTE) enrollment for 1973 through 1982 and the proportion of district populations served by the community colleges. Section 2 provides data on faculty and staff employed in the colleges and includes information on civil service and classified status, administrative and non-professional staff, and average class sizes. Section 3 provides information on programs in Illinois community colleges including an inventory of programs at each college designated by category (i.e., district, regional, statewide, cooperative, and area programs); and provides data on the number of certificates and degrees awarded in baccalaureate, general studies, and occupational programs. Section 4 presents financial data on audited and budgeted revenues and expenditures, chargeback computations, local tax rates, tuition and fees, state aid grants, and energy costs and usage. Finally, section 5 presents data on physical facilities available on community college campuses and on the financing of the facilities. (HB)

INTRODUCTION

This is the third publication of a comprehensive data book by the Illinois Community College Board (ICCB). This document contains data and characteristics of the Illinois public community college system and is designed to serve as a basic reference. No analysis of the data is intended in this document. The data are obtained from various surveys and studies conducted by the ICCB staff and from the colleges' annual MIS submissions.

This document contains annual data for Fiscal Year 1982 and fall term data for 1982 (FY 1983). Enrollment data and faculty and staff data are collected during the fall term each year; thus, these data are Fall Term 1982 (FY 1983). Budgeted operating finance and facilities data are for the current year, Fiscal Year 1983. Audited financial data, unit cost data, annual enrollments, and graduate data are for the past fiscal year, Fiscal Year 1982.

This publication contains information about 1) students, 2) faculty and staff, 3) instructional programs, 4) operating finance, and 5) capital construction. Each of these areas constitutes a section of this document. Several tables summarize data from more detailed reports that have been published separately. The objective of this document is to provide useful summaries of data for community college districts in one reference document. If you have requests for other data or suggestions for additions or deletions, please contact the ICCB Office.

Special acknowledgment is extended to the personnel of the colleges for their cooperation in completing surveys and providing the ICCB with computer-readable data on a timely basis.

Table 1 on the next page is a summary profile of selected statistics for the 39 Illinois public community college districts. The map on page vii shows the geographic location of each college district.

ILLINOIS PUBLIC COMMUNITY COLLEGES
(Shaded Area Indicates Territory not in a Community College District)

September 1982

ALPHABETICAL LISTING OF ILLINOIS PUBLIC COMMUNITY COLLEGES

The data contained in this publication are presented in community college district numerical order. The following is an alphabetical listing of the districts with corresponding district numbers as an aide for those persons unfamiliar with the numerical system.

District Name	District Number
Belleville Area College	522
Black Hawk College	503
City Colleges of Chicago	508
Danville Area Community College	507
College of DuPage	502
Elgin Community College	509
William Rainey Harper College	512
Highland Community College	519
Illinois Central College	514
Illinois Eastern Community Colleges	529
Illinois Valley Community College	513
Joliet Junior College	525
Kankakee Community College	520
Kaskaskia College	501
Kishwaukee College	523
College of Lake County	532
Lake Land College	517
Lewis & Clark Community College	536
Lincoln Land Community College	526
John A. Logan College	530
McHenry County College	528
Moraine Valley Community College	524
Morton College	527
Oakton Community College	535
Parkland College	505
Prairie State College	515
Rend Lake College	521
Richland Community College	537
Rock Valley College	511
Carl Sandburg College	518
Sauk Valley College	506
Shawnee College	531
Southeasten Illinois College	533
Spoon River College	534
State Community College of East St. Louis	601
Thornton Community College	510
Triton College	504
Waubonsee Community College	516
John Wood Community College	539

Section I

STUDENT CHARACTERISTICS

This section includes data on headcount and full-time equivalent (FTE) student enrollments in Illinois public community colleges.

The public community colleges of Illinois enroll more than 50 percent of all students enrolled in higher education in the State of Illinois. The diverse population of the communities that the colleges serve is reflected in the student characteristics shown in this section.

The tables show student enrollments based on opening counts (10th-day enrollments) for a given term. Opening enrollment counts are a snap-shot count at the end of the regular registration for the fall term and do not include many students who enroll for courses which start later in a term.

Table I-1 shows that the annual unduplicated headcount enrollment in Illinois public community colleges for Fiscal Year 1982 was 791,496. This is more than twice as many students as the number who were enrolled in the fall of 1981.

Table I-2 shows the fall 1982 student headcount enrollment by instructional program area. Thirty percent of the students were enrolled in baccalaureate transfer programs, 30 percent in occupational programs, 0.8 percent in remedial/developmental programs, 15 percent in general studies programs, 6 percent in vocational skills programs, and 10 percent in adult basic education/adult secondary education programs.

Table I-3 shows the fall 1982 student enrollment by sex and type of attendance. Fifty-seven percent of the enrollments in Illinois community colleges were women. Part-time students accounted for 72 percent of the enrollments.

The data in Table I-4 shows fall 1982 enrollment by age categories and provides the median age of students for each public community college. The median age for fall 1982 students was 25.8 years. This is down 1.1 years from the fall 1981 median age of 26.9.

Table I-6 shows that approximately 14 percent of fall 1982 students were classified as sophomores. Fifty-seven percent of the fall 1982 enrollments were classified as freshmen.

Table I-11 shows the trends in community college headcount enrollments from fall 1973 through fall 1982. Table I-12 shows the trends of FTE enrollments for the same ten-year period.

Section II

FACULTY AND STAFF DATA

The tables in this section show information about the number of faculty and staff employed by the public community colleges of Illinois and their compensation. The salary and staff data were collected in fall 1982 and reflect averages for FY 1983.

Table II-1 shows the number of instructional teaching faculty members during fall 1982 who were hired to teach in the classroom. The data in this table are shown by sex and employment status.

Table II-2 shows the total number of administrative staff by sex. Administrative staff include both academic and general administrative personnel such as the President, Dean of Instruction, Dean of Student Services, Director of Financial Aid, Director of Counseling, and other similar administrative positions.

Table II-3 shows the number of full-time and part-time other professional staff by sex employed in each community college. Other professional staff includes counselors, librarians and other instructional support staff. Table II-4 shows the same information for classified or civil service type staff.

The average contractual base salaries paid to full-time teaching faculty, full-time administrative staff, and full-time other professionals are shown in Table II-5.

Table II-6 shows the average class size for lecture/discussion classes and laboratory classes. Table II-7 shows a percent distribution of classes by size for each community college.

Section III

PROGRAM DATA

This section includes information relative to programs in Illinois public community colleges.

Table III-1 is an inventory of programs approved at each community college. Each program is designated as:

D - District Program - A program which may be approved to serve the needs of a district if it meets standards and criteria for approval.

R - Regional Program - A program approved to serve a region of the state.

Region I:	Districts 512, 532, 528, 535, 504
Region II:	District 508
Region III:	Districts 502, 509, 527, 516
Region IV:	Districts 525, 520, 524, 515, 510
Region V:	Districts 519, 513, 523, 511, 506
Region VI:	Districts 503, 514, 518, 534, 539
Region VII:	Districts 507, 517, 526, 505, 537
Region VIII:	Districts 522, 529, 501, 536, 601
Region IX:	Districts 530, 521, 531, 533

S - Statewide Program - A program so specialized or unique that only one or two would be approved in the state.

C - Cooperative Program - A program approved to be offered through contractual agreement(s) with other institution(s).

A - Area Program (no longer used) - A program approved to serve an area larger than a single district but smaller than a region.

Table III-2 shows the number of certificates and degrees awarded in FY 1982 baccalaureate and general studies programs.

Table III-3 shows the number of certificates and degrees awarded in FY 1982 in the occupational programs.

Section IV

FINANCIAL DATA

Presented in this section are financial data on audited and budgeted revenues and expenditures, chargeback computations, local tax rates, tuition and fees and state aid grants.

Tables IV-1 through IV-3 gives historical data for annual enrollments, ICCB grants to colleges, and net instructional unit costs.

Table IV-4 shows the FY 1982 apportionment credit hours for the seven instructional categories and the total apportionment credit hours for each community college district. Apportionment credit hours are those hours which qualify for state credit hour reimbursement funding.

Table IV-5 shows the state grants received by each community college during FY 1982 for each category of grants.

Table IV-6 shows the per capita costs per credit hour, the chargeback rate, and tuition and fee rates for each community college. Colleges are limited by law to a tuition rate of one-third of their per capita costs.

Table IV-7 lists the total 1981 operating tax extensions, corporate personal property tax paid to each community college district in FY 1982, and the net operating corporate revenues which are total CPPRTR less an allocation to the colleges' bond and interest funds.

Table IV-8 shows each college's 1982 levies for worker's compensation insurance, tort liability insurance, unemployment insurance, audits, and the bond and interest fund.

Table IV-9 shows the FY 1982 net instructional unit cost for the seven instructional categories for each community college district.

Tables IV-10 through IV-12 show revenues by source and expenditures by object and function reported in the colleges' FY 1982 external audits. Tables IV-13 through IV-15 show revenues and expenditures budgeted by each community college for FY 1983.

Tables IV-16 and IV-17 show energy usage and costs for each college.

Section V

FACILITIES DATA

This section on facilities presents two types of data: the first part gives data on physical facilities available on community college campuses and the second briefly describes how the facilities were financed.

Table V-1 summarizes the total acreage on each college campus by nine categories of land use.

Table V-2 summarizes the total net assignable square feet (NASF) and gross square feet (GSF) available on each community college campus.

Table V-4 gives the percentage of classroom and laboratory utilization by time of day for FY 1982.

Tables V-5 through V-7 show the NASF by function of space on each campus. The NASF is shown for state funded facilities, locally-funded facilities, and temporary facilities.

Table V-8 shows the NASF by function of space in facilities which are state funded and either under construction or approved for construction. Table V-9 shows this breakout for locally-funded facilities.

Table V-10 shows the amount of space per college justified for state supported construction based on the enrollment criteria utilized by both the IBHE and the ICCB. The calculation of enrollment justified space is based on the following formula:

For facilities other than occupational program instructional shops:

On-campus FTE Day Students	Gross Square Feet Per On-campus FTE Day Student
For the first 1,500 students	110
For the next 1,500 students	100
For each student above 3,000	90

For occupational program instructional shops, 140 gross square feet per on-campus FTE day student enrollment in courses using such shops.

Table V-12 depicts the sources of funding for each college's permanent facilities. One district (Richland) has no permanent facilities and, therefore, has received no state appropriation. John Wood has only one small extension center facility partially funded by the state.

Table V-13 lists the budgeted sources of funding for all known capital projects for each of the 51 campuses as of February 1, 1983. The total cost of the individual project, as well as district totals, are shown for all completed projects. Table V-14 provides the same information for projects currently under construction as of February 1, 1983.

NASF = Net Assignable Square Feet
GSF = Gross Square Feet

*Building efficiency equals net assignable square feet divided by gross square feet.

(a) Includes sources such as interest earned, transfers from operating funds, foundation grants, and in-kind credits.
(b) Does not include grants for technical assistance (T.A.).
(c) Differs from appropriation because of construction defects or bids under budget.
(d) May not include site and construction funds expended for movable equipment.
(e) Three buildings constructed in cooperation with the Chicago Public Building Commission.
